Surgery for “advanced” lung and esophageal cancer: New horizons or false dawn ?

Thursday 6th April
Aula Magna, Palazzo Centrale, University of Catania

Friday 7th April
Aula Magna Policlinico University Hospital, Catania

Endorsed and Supported by:
University of Catania
Policlinico University Hospital
Johnson & Johnson
Baxter

WELCOME

There are many areas in thoracic oncology with open questions that need answers. Between them indications for surgery for advanced lung and esophageal cancer remain uncertain. The recent report on operable N2 disease in lung cancer has as a result that more questions have arisen. The surgeon has to reconsider the best strategy for lymphadenectomy for example. Moreover the reasonable results have been obtained for selected M1a lung cancer with pleurectomy/decortication and HITHOC alert us to expanding indications and the possible requirement of a *personalized* surgery. The use of VATS in locally advanced lung and esophageal cancer could be feasible in expert hands but are not for every surgeon. Hope but not false hope should be given to patients with recurrent disease after esophagectomy especially for those with limited recurrence (solitary locoregional recurrence or solid organ metastasis). We believe that advanced lung and esophageal cancer does not always mean the end.

We can hear and discuss new ideas in the relaxing and collegiate atmosphere is provided by the Catania Symposium

Semih Halezeroglu

Toni Lerut

Marcello Migliore

International Speakers

Philippe Dartevelle	Paris
George Decker	Luxemburg
Semih Halezeroglu	Istanbul
Toni Lerut	Leuven
Michael Mueller	Vienna
David Sanchez	Barcellona

Italian Speakers/Moderators

Mario Barone	Messina
Antonio Basile	Catania
Luca Bertolaccini	Ravenna
Massimo Cajazzo	Palermo
Alessandro Gonfiotti	Firenze
Pierluigi Granone	Rome
Alfonso Maiorana	Palermo
Livia Manzella	Catania
Francesco Monaco	Messina
Maurizio Monaco	Messina
Maurizio Nicolosi	Catania
Luigi Santambrogio	Milan
Piergiorgio Solli	Forlì
Alessio Vagliasindi	Ravenna
Paolo Vigneri	Catania
Giovanni Folco Zambelli	Lignate

Programme

Thoracic Surgical Oncology IV

Thursday 6th April 2017 - afternoon - 17:00 - 19:00
Aula Magna - Palazzo Centrale Università di Catania

OPENING CEREMONY

Introduction

Rector of the University of Catania
Francesco Basile

President of the "Ordine dei Medici"
Massimo Buscema

Direttore A.O.U. Policlinico – OVE
Paolo Cantaro

President of the Italian Society of Thoracic Surgery
Pierluigi Granone

President of the Italian Society of Thoracic Endoscopy
Maurizio Monaco

President of the Italian College of Academic Thoracic Surgery
Luigi Santambrogio

Lectures

Chest wall resections and reconstructions for thoracic wall neoplasia
Semih Halezeroglu

History of thoracic and esophageal surgery at the University of Catania
Marcello Migliore

Mediterranean Thoracic Surgery

Annual Scientific Symposium

Friday 7th April 2017 - morning

08:00 Registration

09:00 INTRODUCTION AND GREETINGS

DIAGNOSIS AND STAGING

Moderators: *Semih Halezeroglu - Pierluigi Granone - Mario Barone*

09:15 **Lecture: Precision management of stage III disease**
Michael Mueller

09:45 What is the modern role of radiology ?
Antonio Basile

10:00 N2 disease: Straight to surgery ?
David Sanchez

10:15 (Video) Mediastinoscopy in N2: has it become redundant ?
Toni Lerut

10:30 Panel Discussion

10:45 **Break**

SCIENCE AND THE REAL WORLD - I

Moderators: *Michael Mueller - Luigi Santambrogio - Massimo Cajazzo*

11:30 **Lecture: 30 year experience with resection in advanced lung cancer**
Philippe Dartevelle

12:00 Is appropriate to perform VATS for advanced lung cancer?
David Sanchez

12:15 Single Incision VATS pneumonectomy for centrally located lung cancer
Semih Halezeroglu

12:30 Data from the Italian VATS group
Piergiorgio Solli

12:45 ERAS in thoracic surgical oncology
Alessandro Gonfiotti

13:00 Panel Discussion

Friday 7th April 2017 - lunch

13:15-14:30 **LUNCH AND LIVE POSTER SESSION** (residents and students)

Semih Halezeroglu - Livia Manzella - Marcello Migliore - Maurizio Nicolosi

The oesophagus should always be seen at a staging mediastinoscopy

Nardini M - Jayakumar S - Mydin IM - Migliore M - Dunning J

James Cook University Hospital, Middlesbrough, UK - King's College Hospital, London

Percutaneous microwave ablation in the management of lung tumors

Fatica F - Cocchiara G - Polizzotti G - D'Orazio B - Rizzuto S - Anzalone A - Galluzzo A - Lo Monte A - Midiri M - Cajozzo M

Regional School of Thoracic Surgery, Department of Surgery and Oncology, Operative Unit of Thoracic Surgery, University of Palermo - Palermo, Italy.

Rituximab in the treatment of rheumatoid arthritis related lung disease

Iqbal K - Kelly C - Iqbal F

Newcastle University, Newcastle upon Tyne, UK and University of Liverpool - Liverpool, UK

Bronchoplasty for carcinoid tumour of the right main bronchus

Borrata F - Criscione A - Monaco E - Nardini M - Migliore M

Regional School of Thoracic Surgery, Department of General surgery and Medical Specialties, Policlinic University Hospital, University of Catania - Catania, Italy

Combined Uniportal VATS in prone position and spine neurosurgery for a mediastinal hemangioblastoma

Monaco E - Borrata F - Migliore M

Regional School of Thoracic Surgery, Department of General surgery and Medical Specialties, Policlinic University Hospital, University of Catania - Catania, Italy

Friday 7th April 2017 - afternoon

SCIENCE AND THE REAL WORLD - II

Moderators: *Philippe Dartevelle - Pierluigi Granone - Maurizio Monaco*

15:00 **Lecture: Modern treatment of "advanced" lung cancer**

Pierluigi Granone

15:30 Translating Basic Research Into Clinical Practice: Physics of Hyperthermia in humans

Giovanni Folco Zambelli

15:45 HITHOC for M1a lung cancer: a new hope or false dawn?

Marcello Migliore

16:00 Surgery for oligometastatic disease

Luca Bertolaccini

16:15 Immunotherapy in the treatment of lung cancer

Paolo Vigneri - Livia Manzella

16:30 Panel Discussion

SCIENCE AND THE REAL WORLD - III

Moderators: *Toni Lerut - Alfonso Maiorana - Francesco Monaco*

16:45 **Lecture: Lessons learned from 3000 esophagectomies**

Toni Lerut

17:00 Extent of Lymphadenectomy for type I GEJ esophageal cancer

Alessio Vagliasindi

17:15 Locally Advanced esophageal cancer does not always mean the end

George Decker

17:45 Panel Discussion

18:00 Conclusion and take home messages

18:15 Adjourn

GENERAL INFORMATION

For scientific informations email to:

mmiglior@unict.it

Sede del Congresso

Aula Magna Policlinico Universitario, Catania, Via S. Sofia,78,95123 Catania

Categoria professionale

Il Corso è rivolto a n. 150 partecipanti. Professione: Medico Chirurgo - **Tutte le discipline**

Quota di iscrizione

Congress fee :

- Surgeon € 150,00
- Residents € 70,00
- Medical students free

Iscrizione

> L'iscrizione è obbligatoria fino ad esaurimento dei posti disponibili e può essere effettuata online collegandosi al sito WWW.FULLCONGRESS.IT nella sezione iscrizioni online o compilando ed inviando via e-mail (info@fullcongress.it) la scheda di iscrizione alla Segreteria Organizzativa entro e non oltre il **1 Aprile 2017**. Le schede di iscrizione pervenute senza il pagamento della quota non saranno ritenute valide. Verranno accettate iscrizioni fino al numero massimo di posti disponibili. Verrà inviata conferma tramite e-mail solo ai partecipanti ammessi.

> comprende

- Partecipazione ai lavori
- Attestato di partecipazione
- kit congressuale
- Buffet lunch

Modalità di pagamento

Il pagamento della quota di iscrizione può essere effettuato tramite bonifico bancario intestato a:

Fullcongress di Daniela La Russa & C. s.a.s. - B.C.C. "G. Toniolo" filiale di San Cataldo
IBAN: IT 25 E 08952 83420 000000016176

Specificare nella causale: Cognome – Congresso 6/7 Aprile 2017 Catania

Residents and medical students

Are encouraged to send their abstracts of no more than 250 words as follows: introduction, AIM, Methods, Results, Conclusions.

To the Authors of the best abstracts it will be asked in advance to write the full paper for proposal of publication in **Future Oncology**.
